hyde is the creation of anne-kerr kennedy (“a.k.”), who discovered yoga 16 years ago. what began as exercise quickly became a passion that extended to affect all aspects of her life. hyde was born from an intention to create clothing that encourages comfort, confidence, and beauty. inspired by the notion of flexibility of both body and mind, we incorporate the principles of yoga into a thoughtful conetemporary line of apparel. the hyde collection is designed and fabricated with a fit and aesthetic that travels from the studio out into the world.

“Anne Kerr Kennedy’s Hyde yoga pants combine elegance, simplicity, comfort and style. I love them.”

-Deepak Chopra

hyde is a socially conscious company.  
the line is produced in a sweat-shop free environment  
using predominantly organic fibers.
